

Rausch UK Telescopic HD Pole Camera

Streamlined for rapid deployment in all environments.

The total system for quick, safe covert and overt inspections in all environments.

The Rausch UK HD Telescopic Search Camera is a complete system that provides a quick, secure way to perform inspections and surveys at height and difficult to reach places. Full colour images can be viewed in daylight, and in darkness the system switches automatically to infrared technology. The screen console is easily attached to the telescopic pole – enabling great mobility and rapid deployment.

Performance

The compact and easy to use design of the Pole System can be used with minimal training by the military, police, prison service, customs and excise, security and many other industry sectors.

The Pole Camera offers reliability, high quality visual and audio capture and is robust enough to endure front-line military use.
